ELLE

PHOTOGRAPHS BY
MICHAEL MOORE

Twenty-year-old Elle has a passion for PVC. "I love to go out wearing short plastic skirts and tops with no underwear," she told us. "I've seen men in the clubs I go to go wild when they spot the outline of my pussy through the tight fabric." And sometimes Elle can't hold back either: "Sometimes I meet a man when I'm out, and we can't help ourselves, we just do it there and then. I've often taken a man into the Ladies so that he can push his hard cock into my hot pussy. Once I made so much noise people broke down the door to see what was happening. But it didn't matter, I'm such an exhibitionist I just carried on riding the bloke anyway." Lucky bloke.

DEE

PHOTOGRAPHS BY
JACK HARRISON

Sugary Dee, 19, from Leicester confesses to a weakness for oral sex and sweets: "I love having something hard and sweet in my mouth," she smiled. "If it's not a cock then I have to make do with a bar of chocolate. But I know which I prefer." She's certainly got plenty of experience. "I like to tease a man with my tongue before I take him in my mouth," she explains. "And of course the big advantage spunk has over choccy is that it's not fattening. If it was I'd be 20 stone!"

PAMMY & ALEX

PHOTOGRAPHS BY BOB TWIGG

When we last met Pammy, the 21-year-old lusty Liverpudlian was looking for work as a Mayfair model. Well, we got her some. But being a right-on company, we believe in job sharing – so it's a lezzer sesh with mucky blonde bookworm, Alex. "I've never been with a woman before," says the Brookside soundalike. "But it was great. That Alex's tongue is so supple my clit felt like it was being gift-wrapped!" Authoress Alex, 22, was equally enthusiastic. "Pammy's nimble fingers are definitely something to write home about," she said, still a bit breathless. "But neither of us could be full-time dykes. Our lezzer session left us both desperate for a lovely, long dick!"

interview

Hill's Thrills

With 70 blue movies behind her, 25-year-old Melissa Hill is a Hollywood porn veteran. In an exclusive interview she speaks out about sex in front of the camera and in private.

Melissa Hill is feeling pleased with herself. She has just shot the last scene for *Apocalypse Climax*. A parody on *Apocalypse Now*, it is an adventurous movie in a business which hardly has a dazzling reputation for storylines. The plot is good and the budget is big – close to half a million dollars. In the sex supernova career of the very amenable Melissa Hill, this is a highpoint.

Apart from Apocalypse Climax, of course, which are your other favourite sex movies?
The Girl With the Heart Shaped Tattoo, because it was the first movie I had the lead role in, and *Arrowhead*, which we shot in the Phillipines. It has many great sex scenes, especially group scenes, and a good story. I love it. And it was also special to me, since I did my first anal scene in it.

How did you get into blue movies?
Back in 1993, a friend of mine went to a model agency to sign up as a nude model, and I went with her. I worked as a ballet trainer at the time and needed extra money, so I thought I could do it as well. I started posing for soft nude photography. Then I did some amateur sex videos and I realized that I wanted to get into the professional porn business.

How come?
It's simple; if you like to do sex movies, you want to do good sex movies. In the amateur business, there are too many guys that just want to fuck and don't care about the filming.

How often is sex in front of the camera good sex for you?
About half of the time, I would say. Believe it or not, I am a very shy person and in the beginning I had big problems relaxing. I was tense having so many people around while I got fucked. But eventually I learned to relax more, so that I could enjoy the sex. Another problem though, is that my pussy is so tight. Because of that I can't work with the biggest guys in the business – their dicks hurt!

Have you had orgasms on camera?
Yeah, about ten times or so.

Have you done "it all" on screen?
No, and I don't really want to do everything, either. I have done girl-girl scenes, I have done an anal scene. I have had two guys at the same time, but no perversions, huge group scenes or stuff like that. And apart from that, I am really picky about who I work with.

"I LIVE MY NASTY SEX FANTASIES IN FRONT OF THE CAMERA!"

How many people have you had sex with in front of the camera?
About 20 guys and 15 girls.

How was your first lesbian scene?
Weird! I did it with a friend of mine in an amateur video. We were both very embarrassed and we giggled most of the time, so I guess it wasn't a very sexy scene. A couple of times later it became a lot better. I worked with a girl who was far more experienced than I was. She went down on me and licked my pussy in the most wonderful way. I was amazed when I realized that I was really hot, and before I knew it, I came right in her mouth! Now I always enjoy girl-girl.

When did you lose your virginity?
When I was 17, with my boyfriend at the time, in the back seat of his car. It was good sex, even though we were young and inexperienced.

How many men have you had sex with in private?
Maybe 25. I don't fuck just anybody. Sex in front of the camera is one thing, sex in private is totally different. To me, feelings are extremely important. I can't have sex with a guy I don't feel a lot for. In front of the camera, I really live my nastiest sex fantasies, things I would never dare to do in private. But afterwards, I can go home and defend myself saying "I did it for the movie", you know.

Any good private sexual experiences?
Once I fucked with my boyfriend at the time, and his best friend, just because it was one of my boyfriend's fantasies. They picked me up in a van, and my boyfriend wanted me to give his friend a blowjob – while he was driving! So I did, and the windows became so steamed up, that he had to park. After that, both of them fucked me right there in the van. I really couldn't believe that my boyfriend wanted me to do that.

What do you like most in bed?
Oral sex, and more to give than to get, I guess. I get very, very horny when I give a guy a blow job, and sometimes I have actually been close to orgasms, just by giving head!

Do you swallow the come?
Ha! It depends on who the guy is and what my feelings for him are. But yes, it happens. Most of all though, I like to get his sperm on my tits because it really makes me horny!

What is your biggest sex turn-off?
Socks. Guys who keep their socks on when they fuck, I can't believe they do that. I hate socks!

Do you masturbate?
I started doing it when I was a teenager and kept on for a while. I stopped when I started to have sex with guys. These days, I never masturbate. I like to save my energy for good fucking. But on the other hand, it quite often happens that I wake up in the middle of the night all wet and horny, and feel that I am close to an orgasm!

What does your family think of you being a porn star?
They don't even know. I am not sure what they would say. I have a great relationship with my mother, so I am pretty sure that she would understand. People in San Francisco, where I live, don't even care. San Francisco is so wild that porn seems like a pretty innocent affair.

Your future plans?
I am very happy with what I am doing. One day I might want to switch positions and get behind the camera to direct. But right now, I love what I do. Ⓜ

ALICE

PHOTOGRAPHS BY STEVE COLBY

Alice from London is an old-fashioned girl – in her choice of underwear, that is! "My favourite place is the undies department of a well-known department store. A couple of months ago I was there trying on Wonderbras. Having trouble with the first, I buzzed for help and a sexy young blonde assistant came in to help me. My pussy dripped with excitement as she slid her fingers over my tits to reach the back, then slipped the fingers of her other hand in and out of my swollen pussy. We had to be as quick and quiet as possible, but I still had time to ease my tongue up her white lace panties and tease her clit between my teeth until she came in my mouth, as a thank you for all her help! I go there twice a week now, and always get personal assistance!" Blimey! What we'd do to help Alice out of her underwear two days a week! Ⓜ

BELINDA

BY VIV THOMAS

There's nothing 21-year-old Belinda likes better than playing around with balls on a tennis court. In fact her first lesson ended in a love match with her muscly instructor. "He taught me the correct grip and more than one sort of forehand stroke. We must have been making a right racket, but we carried on anyway. I couldn't let that huge cock go to waste," giggled Belinda. "Now I've got my eye on the ball boy who pours the Robinson's. I like to pass on what I learn..."

CASSIE

Cassie from Kent was very pleased when you all wrote to ask for more photographs of the insatiable nymphet. "I thought with my warning about being a biting, clawing, animal, I might scare you off. But now I know you're more than ready for me! Now, to start with I'd like one of you to take care of my pussy, two on my boobs and at least three to look after my bum... I don't ask for much do I?!"

LOUIS

PHOTOGRAPHS BY JOHN STUART

As you enjoyed Louis's tales of fancy dress frolics a couple of issues back, she thought you might like to know that dressing up for a ride is also her idea of a good time, especially when she's going out for a gallop with the randy instructor of the local riding school. "I saw him one day in the woods, and liked the way his thighs were gripping the saddle – I thought I could do with some of that! So I dismounted behind a tree, stripped down to my riding boots then rode out in front of him. He nearly fell off his mount, but he soon got the idea, and minutes later the horses were tied up as he screwed me underneath a tree, pushing his riding stick deep inside me and showing me his rising trot! Next time we're going to try it on horseback – I'm soaking wet at the thought of horsing around with him again!" Neigh, neigh, neigh, leave the crap puns to us, Louis! Ⓜ

KIRA

PHOTOGRAPHS BY SANDY FOX

Kira caught the eye of one of our readers earlier this summer. Nick from Hull spotted the Southend babe at Gatwick airport on her way to Spain. "I'm sure other readers will agree that Kira has to be one of the horniest girls Mayfair has featured in this prestigious spot," he said. "When I saw her I just had to speak to her!"

Kira was thrilled that Nick was so impressed with her, and laughs when she remembers her trip abroad: "I went with my friend, Chloe. By the time we reached the hotel we were dying to be bonked. We went out and picked up two local barmen, took them back to our room and had a foursome. I'm quite shy normally! I think it was all this talk of being in your magazine that got me going." Hey, don't blame us!

MARIE

PHOTOGRAPHS BY SALLY JACKSON

"I've not even seen a cock let alone got my hands on one since I've been here!" sighs Marie, our sunny stunner currently stripping off in Southern Italy.

"When I go abroad I lose all my inhibitions and all my clothes! Last year in Goa I found out how good sucking a cock is, and I gave so many blow jobs that my technique improved no end. I love grabbing a guy's bum and slowly pushing his dick past my lipsticky mouth; I love rolling just the tip around my mouth with my tongue, savouring its meaty taste, and I love gobbling as much of his length as I can get down my throat. I'm blow job bonkers! So, you see, if I don't find a hard cock soon I'll be all hot and bothered. I've only been here two hours but that's two hours without a cock too long!" Ⓜ
